

OPERATION. FLEECE JACKETS

Being an Israeli soldier is not easy...

The best weapon a soldier has is not his gun, but his will to fight. The best armies are the ones that believe in what they are doing so much that they will make any sacrifice to further the cause and accomplish their mission. If a soldier is totally convinced of the righteousness of the cause for which he fights, he will also be a much more fierce warrior.

It's our responsibility as Christian Friends of Israel, here in Jerusalem and around the world, to let the Israeli soldiers know that we love and support the Israeli Army and to remind them who they are.

We can remind them that they don't fight their battles alone and that the God of Israel is with them. We can tell them that they have

millions of people around the world who love them and pray for them daily! Most importantly, we can give of ourselves in more practical ways that say a great deal. This coming winter we are planning to give away more fleece jackets/ gloves and hats to the Israeli soldiers.

Would you join us in our efforts by donating to Project David's Shield? Your gift will not only help keep a soldier warm this winter, but also will be a means of showing our love and support to them in a very meaningful way!

"And the LORD their God will save them in that day as the flock of His people; for they are as the stones of a crown, sparkling in His Land" (Zechariah 9:16).
